REVERSE OSMOSIS SYSTEMS

Pure Quality Water

WATER GEM, INC.

PURE WATER FOR PENNIES A DAY

The quality of drinking water is on everyone's mind today. Bottled water sales have skyrocketed. However, bottled water is expensive, inconvenient and of questionable quality. So, how do you get quality water without breaking the bank or your back?

PuROmax's Reverse Osmosis Systems deliver quality water right from your own refrigerator and ice maker. Water so pure that you can instantly see a difference in your ice cube clarity.

Quality water that exceeds most bottled water

Quality water for only pennies a day

Quality water right at your fingertips

Quality water for ice and prepared beverages

Reverse Osmosis technology protects you from all these listed chemicals, plus many other chemicals -- too numerous to list. Protect yourself and your family against these harmful contaminants and enjoy the benefits of pure reverse osmosis water in your home or office today!

Nominal Rejection Rates for Typical R/O Units

Aluminum 96-98%
Arsenic (+5) 94-96%
Bacteria 99+%
Cadmium 95-97%
Calcium 94-97%
Chlorine 90-95%
Chloride 90-95%
Copper 96-98%
Cyanide 90-95%

Fluoride 93-95%
Lead 96-98%
Magnesium 94-96%
Mercury 95-97%
Nitrate 92-95%
Phosphate 97-98%
Silver 95-97%
