WATER PROBLEMS

PROBLEMS WITH IRON & SULFUR

Did you know?

Water is a natural solvent, dissolving just about everything it comes in contact with, along its path. Unfortunately, among those dissolved contaminants is iron, manganese and the rotten egg smell that sulfur produces.

The water then causes stains of yellowish-orange, black, green, or a combination of these colors. These stains show up on bathroom fixtures, appliances and clothing - which make these items impossible to clean.

Leaving these contaminants in your water will cause permanent damage. In time, it will result in clogged and rusted pipes, and will also reduce the efficiency of your hot water heater.

IT'S TIME FOR RELIEF

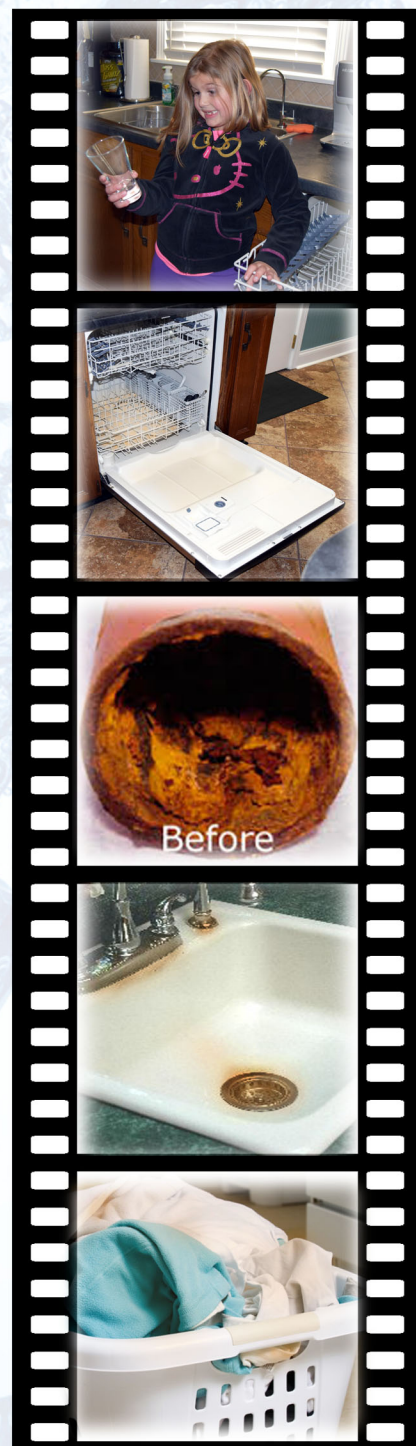

Clogged pipes are not uncommon when iron is present in your water. It effects toilets, sinks, dishwashers, hot water heaters and laundry, and often results in replacements being needed. This is very costly and can be prevented!

Iron and sulphur filtration systems remove these harmful contaminants from your water. Without iron in your water, cleaning will be reduced to a minimum. You'll instantly see better laundry and dishwashing results. Plus, your fixtures will be bright again! Isn't it time you experience the benefits of a Water Gem System?

IRON & SULFUR CAUSES:

- * Clogged Pipes
- * Discolored Laundry
- * Hair Discoloration
- * Dishwasher Stains
- * Rotten Egg Odor
- * Clogged Appliances
- * Rusted Toilets & Sinks
- * Discolored Water

Iron stains are like a horror movie...

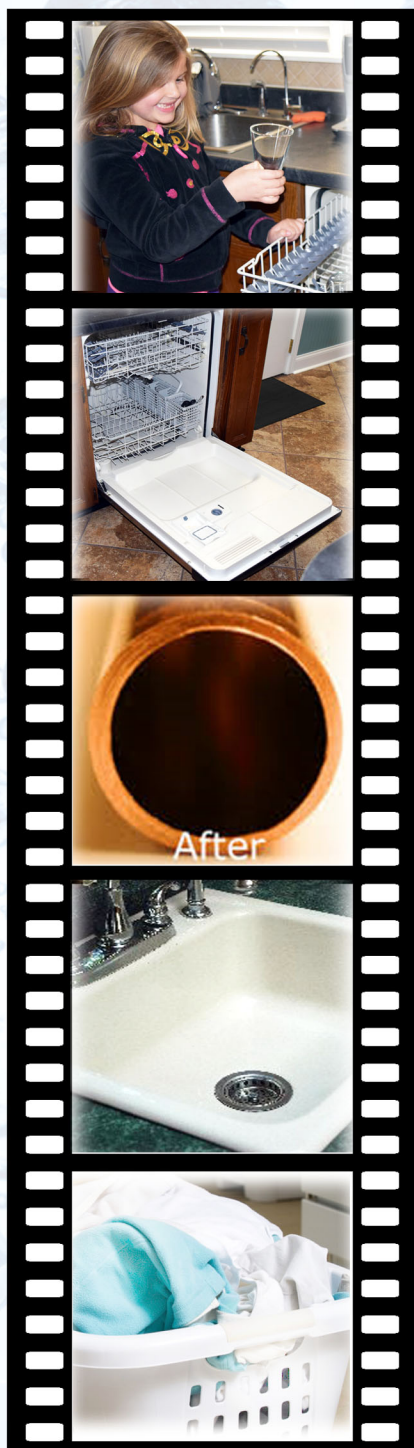

WATER GEM, INC.

WATER SOLUTIONS

SEE THE DIFFERENCE!

Let Water Gem show you a happy ending.

- * Stops iron stains from occurring
- * Produces clean, odor-free water
- * Protects your water softener from iron fouling
- * Protects plumbing fixtures, appliances and clothing
- * Protects pipes from iron clogging and black oxidation
- * Eliminates the need for chemical feed treatment systems

WATER GEM, INC.

WHOLE HOUSE FILTRATION

Water Gem's backwashable filter system comes with multiple options for adapting to various home treatment needs. Explore the possibilities!

VARIOUS MEDIA USED FOR:

- * Iron removal
- * Chlorine removal
- * Turbidity removal
- * PH neutralization
- * Petroleum removal
- * T.C.E reduction
- * T.H.M. reduction
- * Improved taste & quality of your household water

See the difference when you switch to filtered water in your home, right away!

Available in multiple valve configurations

Water Gem will custom fit any unit for your application needs.

5600 MODEL

2510 MODEL

Yes, there are features and designs to suit every budget and need! Please contact your local dealer to discuss which system is right for you.

40 Years Water Treatment Experience

Yes, it's important to know that Water Gem has a track record that spans more than four decades. Our goal at Water Gem is ensuring your complete satisfaction with our products and services.
